OBJECTIVE

Full-Stack Developer with hands-on experience building API-driven web applications using React, Node.js, Express, and MongoDB. Strong foundation in REST API development, authentication systems, and asynchronous programming. Interested in developing real-time dashboards, IoT data platforms, and scalable backend services while learning modern TypeScript-based frontend frameworks.

EDUCATION

B.E in Computer Science And Engineering

ICEM Indira College of Engineering and Management, Pune   *OCT 2022 – Present*

Coursework: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Web Technologies

Skills

Languages :Java.

Frontend: HTML5, CSS3, JavaScript (ES6+), React .

Backend: Node.js, Express.js , RESTful APIs.

Databases: MongoDB, MySQL, SQL.

AI & ML: OpenAI API integrations, Prompt Handling.

Soft Skills: Communication, Problem-Solving, Team Collaboration, Critical Thinking, Adaptability.

Version Control: Git & Github,VS Code, Postman(Basic) .

INTERNSHIP

Web Development Intern|CODSOFT   *Oct 2024-Nov 2024*

Worked on frontend and backend tasks using HTML, CSS, JavaScript, and Node.js. Gained hands-on experience in responsive UI, API integration, debugging, and project collaboration.

Associate Intern | BHSSYEN Internship Program 2025   *Aug 2025 – Oct 2025*

Learning Oracle Cloud Applications, Transactional Business Analytics, and AI features in Oracle Cloud. Onboarding into enterprise workflows, reporting, and automation under professional mentorship. Gained exposure to enterprise workflows and improved ability to learn new tools quickly.

PROJECTS

- **SigmaGPT – AI Chat Application (OpenAI API)**
  Developed a custom AI chatbot using OpenAI APIs to generate context-aware responses. Implemented prompt handling, secure API calls, and modular UI flow. Strengthened async programming and API integration.

- **Wanderllast – MERN Stack Accommodation Platform**
  Built a full-stack accommodation platform using React, Node.js, Express, and MongoDB. Implemented authentication, listing CRUD, validation, and error handling. Focused on clean architecture, modular design, and asynchronous operations. Converted functional requirements into working modules using clean architecture. Implemented authentication using token-based validation and role-based access logic.Designed REST APIs for frontend integration and asynchronous data handling.

- **WeatherNow – Real-Time Local & Global Forecasts**
  Built a real-time weather app using React and APIs. Implemented dynamic data rendering, location-based results, and responsive UI. Improved API handling and debugging skills.

- **Restaurant Website**
  Developed an interactive website featuring menu browsing, simple order flow, and responsive styling. Enhanced DOM manipulation and UI development skills.

VOLUNTEER EXPERIENCE

Overall Volunteer | Sports Event Coordinator   *Dec 2023- Mar2025*

Led planning and execution of sports events. Coordinated with teams and faculty to ensure smooth operations. Managed scheduling, logistics, and on-site problem-solving.

Volunteer | National Service Scheme (NSS)   *July 2023 – Mar 2025*

Actively participated in community service initiatives, assisted in event planning, and promoted leadership and social responsibility through NSS activities.
